Professional Summery

Results-oriented Python Full Stack Developer with an MCA and hands-on experience in building scalable web applications using Python, Django, REST APIs, and Microservices. Skilled in backend development, responsive frontend design, and data-driven application logic.

Education

Master of Computer Applications (MCA)

Osmania University |University College of Science, Saifabad *Nov 2022- Nov 2024*

- **CGPA :**8.0

Bachelor of Science(B.Sc) in MPCS (Mathematics, Physics, Computer Science)

Osmania University| BJR Government Degree College, Narayanaguda *Oct 2019 – Aug 2022*

- **CGPA**: 7.96

Technical Skills

Programming Languages: Python
Frameworks: Django, Django REST Framework (DRF)
Architecture: Microservices, REST API
Frontend: HTML5, CSS3, Bootstrap, JavaScript
Database: MySQL
Version Control: Git, GitHub
Cloud Tools: AWS (Lambda, S3, Route 53 – Basics)

Projects

AIS E-Bike Rental Platform | **Live Demo**
Tech Stack: HTML, CSS, Bootstrap, MySQL, Django, Python

- Engineered a complete e-bike rental system with 3 user roles: Rider, Vehicle Provider, and Admin.
- Developed secure user authentication, booking workflows, and user-specific dashboards.
- Integrated vehicle registration with document upload and customizable pricing logic.
- Built a fully functional admin panel to manage 100% of platform transactions and users.
- Achieved 100% mobile responsiveness to improve user experience across devices.

Library Management System
Teck Stack: *HTML, CSS, Bootstrap*, Django, DRF, Microservices, MySQL

- Built a microservices-based system for managing students, books, and transactions.
- Developed independent REST APIs for each service using Django REST Framework.
- Enabled CRUD operations, internal API calls, and dynamic search.
- Integrated admin panel with edit, delete, and data filtering functionality.

Zomato Restaurant Insights (2010–2018)
Teck Stack: *Power BI, Pandas, DAX, Microsoft Excel, Data Modeling, Data Visualization*

- **Created** a Power BI dashboard analyzing 8.6K+ restaurants across 43 cities (2010–2018), improving data visibility.
- **Cleaned** and preprocessed data with Pandas; calculated KPIs using advanced DAX formulas.
- **Highlighted** cuisine, delivery, and booking trends with interactive visualizations.
- **Reduced** report load time by 30% by optimizing data models and limiting calculated columns.

Certifications

- **Python Full Stack Certification** – Narayana Tech House
- **SQL**- HackerRank
